Evening David,

Further to our conversation earlier today.

As discussed the following suggestions are points that I have noticed, it is entirely your decision whether to alter anything should you feel the need to do so, based on cost and the proportionality of crime rate in the area.

View from the road.

Secure the entrance with gate/adequate lock

Block the current easy access to the rear of the hall, on the right hand side with gate/bushes/foilage

Obscure windows – security bars discussed

Display CCTV IN OPERATION stickers/ dummy cameras/adequate security lights

Rear of hall

Install adequate security lighting

Obscure windows

Move bins away from the fence to prevent them being used as a 'step'

Storage room - upgrade current locking system.

Put note on outside indicating there is nothing of value inside

All windows are currently locked which is good practice.

Regards

Dawn
